

Product Installation Instructions

Smart Socket

To complete installation, you will need:

- Smart socket (included in your kit)
- A WiFi connection
- Smart phone with Apple iOS 8 (or higher) OR Android 4.1x (or higher)

Instructions

APP SETUP

1. Download the Simply Conserve® app on your smart phone.
2. Follow the registration process in the app to set up your account.

INSTALL SOCKET

3. Plug the smart socket into the outlet you would like to use. Ensure the LED light turns on.
4. In the app, begin EZ Mode Pairing. Follow the prompts in the app.
5. Hold down the power button to turn the smart socket off.
6. Turn the smart socket back on until the LED light blinks rapidly. You may need to repeat this step several times until the light blinks.
7. Enter your WiFi information in the app.
8. Wait for the app to confirm your connection to the smart socket.
9. Plug in your device or appliance and use the app to set a schedule.

With this smart socket, you can:

- Set timers for the devices and appliances in your home.
- Schedule automatic on and off times to save energy.
- Stay connected to your home anywhere with the Simply Conserve® app.
- Control your socket from your phone with no hub required.
- Connect your socket to Google Assistant or Amazon Alexa.
